

KARTHICK M

Software Engineer | Full Stack Developer | AI/ML

PROFILE

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with a CGPA of 8.69. Proficient in Java, Python, SQL, JavaScript, React, and Flask, with hands-on experience in AI and full-stack application development. Passionate about AI, full-stack development, and building scalable software solutions.

CERTIFICATIONS:

- **JavaScript: Unlocking the Power of Java Script** - Scaler Topics (Mar 2026)
- **Python and SQL for Data Science** - Scaler Topics (Mar 2026)
- **Full Stack Web Development Fundamentals** – Mind Luster (Sep 2025).

ACHIEVEMENTS

- Secured 4th Place in a University-Level Technical Event, competing against participants from multiple colleges for an innovative software project.
- Participated in the IBM National-Level Hackathon conducted at S-VYASA University, collaborating on solving real world technology challenges.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence & Machine Learning) 2022 –2026

CGPA: 8.69 / 10

Relevant Coursework: Data Structures, Java, Python, Artificial Intelligence, Distributed Systems, Database Management Systems, Operating Systems, Software Engineering, Computer Science.

PROJECTS

Plant Leaf Disease Detection with Multilingual Prevention System: Technologies:

Python, TensorFlow, Keras, Flask, CNN.

- Built a CNN-based deep learning model capable of classifying **38 plant diseases** with high prediction accuracy.
- Integrated multilingual voice assistance using Python translation libraries to improve accessibility.
- Designed a Flask-based web application enabling farmers to upload images and receive instant disease diagnosis.
- Optimized preprocessing and image augmentation techniques to improve model performance.
- Reduced manual disease identification time through AI-driven prediction.

Full Stack AI Powered Programming Language Learning Platform: Technologies:

React, Flask, Python, MySQL, JavaScript.

- Developed a full-stack learning platform supporting interactive programming practice.
- Integrated AI-powered code explanation and chatbot assistance.
- Implemented secure authentication and database-backed user management.
- Built REST APIs connecting frontend and backend.
- Improved user learning experience through personalized recommendations.

TECHNICAL SKILLS

- **AI/Machine Learning Algorithms** : TensorFlow, Keras, CNN, NLP, Deep Learning
- **Front-End:** HTML, CSS, JavaScript, React.js
- **Back-End:** Flask, REST APIs, Node.js
- **Tools:** Git, GitHub, VS Code, IntelliJ, Power BI
- **Database:** MySQL, MongoDB.
